

K-LOVE radio station has made a tremendous impact on my life and continues to be a part of my daily living. I enjoy the station and I am grateful that it is available in my community. Our community is growing rapidly and this is the only radio station of its kind that is accessible to us. If K-LOVE were to be replaced by an LPFM broadcaster our community, especially our youth, would be at a terrible loss. This station is more than just a source of good music as it represents a positive, loving, and encouraging way to live in a time when the majority of things found in the media reflects the exact opposite. I urge you to keep K-LOVE on the air and to not replace it with an LPFM.

Sincerely,
Kelly Collard
